PROFESSIONAL EXPERIENCE

Executive Assistant to the Founder

BEDA Group | Remote | Aug 2026 – Present

Provide executive and operational support to the founder across seven ventures spanning nonprofit operations, startup development, Amazon e-commerce, live event operations, dispatch logistics, and executive administration.

- Provide executive and operational support to the founder across multiple ventures, managing priorities, meetings, deadlines, approvals, follow-ups, and day-to-day administrative workflows.
- Manage Asana as the central task-management system across six venture/project boards, maintaining accurate task statuses, setting workflow standards, creating recurring tasks, and converting executive instructions and meeting decisions into actionable tasks.
- Coordinate cross-functional projects and external stakeholders, including vendors, freelancers, board members, clients, and business partners, while managing research, comparisons, communication, follow-ups, and project dependencies.
- Managed social media and program operations for a Canadian nonprofit client, including content creation and scheduling, Canva/CapCut production, content tracking, performance analysis, promotional planning, board coordination, speaker research, and event planning; also developed AI-assisted workflows using Claude.
- Support business setup and operations for ventures including a logistics startup and an Amazon e-commerce store, covering supplier and motorcycle research, registration documentation, partnership agreement drafting, app testing, inventory/business-performance tracking, and supplier follow-ups.
- Support creative and service-based projects through research and coordination, including children's book production and French tutoring, evaluating providers and tools, coordinating meetings/trials, and presenting options to the founder for decision-making.
